

What Color Are Your Antidepressants?

Nick Uhlig
Op. 21

$\text{♩} = 88$

1.

What color are your anti-depressants? Mine are green and white.

4

2.

There are many types, colors shapes and dosages and that's cool.

7

3.

Though it can be intimidating, meds really can help.* What

*Each voice should join the round on the pickup, such that the first voice will sing "white." while the second voice enters on "What", and the third voice shall enter on "What" while the first voice is on "cool.". When singing through the last time, singers must stop on "help." and not sing the last written "What", so as to make grammatical sense.
